Nicole, sorry it's taken so long to be in touch with you. The team going to Uganda shortly really wanted to say **A BIG THANK YOU** for all the work you and all your dancers did before and during the fundraising concert that was held on June 2nd (Heck, that's a month ago!). The performances were exciting and vibrant and showed off the wealth of talent that you are developing at the academy. I feel sure that the entire audience enjoyed your performances and will remember the night for some time to come. We pray that the evening was a blessing for all the dancers as they displayed the gifts that they have been given. We were so impressed with the way you went about your work and it was appreciated so very much. You have made a great contribution to us being able to go. Please pass our grateful thanks on to all involved for a job well done.

For your interest, two of us are leaving this Sunday and the other three leave the following Sunday. Work has already been progressing for the last month or so – I have attached a couple of photos. By the time we arrive, we hope that the walls are up and then we can do out part – put on the roof, finish off the bathrooms, connect the electricals and put in the doors and windows.

Thanks again for your support,

Greg Tebbutt and the Team
